

Case Study:

Krekeler Strother Law Firm

# MANAGED IT SERVICES COSTLY DOWNTIME FOR LAW FIRM

Located in Madison, Wisconsin, Krekeler Strother is a law firm with a staff of 24. They focus primarily on bankruptcy law and other financial legal issues.

The law firm was struggling from an IT standpoint, as their computers and applications were frequently down during crucial times of the day when deadlines needed to be met.

## The Challenge

An unreliable computer system with frequent ineffective IT communication caused high technician turnover and overall frustration among employees. Downtime was expensive and prevented lawyers from being able to work efficiently.

Krekeler Strother turned to Elevity for IT support to help resolve their technology issues. Elevity business analysts developed a custom solution for the law firm after meeting with them and assessing their needs.

## The Solution

This solution included a quick, seamless replacement of all computers and monitors, and 24/7 monitoring and support. Elevity also provided an application for the firm that allowed lawyers and other employees to work remotely, increasing productivity and collaboration. Back-ups continuously running in the background have also increased the firm's security - an essential component for any business in the legal industry.

## The Results

Krekeler Strother has enjoyed many benefits from Elevity's Managed IT Services, from reduced downtime to improved employee satisfaction. With 24/7 Help Desk support and efficient systems, they are better equipped to work on client cases efficiently, have the peace of mind that their computers will be up and running when they need them and ensure valuable data and files will be safe and secure.
